DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5, 7-8 and 10-13 are allowed.

Examiner's Statement of Reason for Allowance

2. The following is an examiner's statement of reasons for allowance for all claims:

Re claims 1, 5, 7, and 13. The prior art fails to teach, or suggest, the limitations of: a method of delivering at least one item or service from a provider to a receiver, the method comprising: receiving an order for at least one item or service available from the provider, the order identifying a receiver to which to deliver the at least one item or service, the order being received without financial information for a purchaser for the order; determining whether the purchaser of the order is pre-approved by a financial processor or has an account with the financial processor, wherein the financial processor is able to provide payment for the at least one item or service upon the delivery of the at least one item or service; if the purchaser is determined to be pre-approved or to have an account with the financial processor, generating an order identifier associated with the order to be provided to at least one of the purchaser and the receiver, the order identifier not including financial information for the purchaser; obtaining the order identifier from the receiver at substantially a time of delivery; providing information regarding the order identifier obtained at substantially the time of delivery to the financial processor, for approval of a financial portion of the order, without providing any financial information to the financial processor; in response to the financial portion of the order being approved by the financial processor, such that

Art Unit: 3695

payment for the order will be provided to the provider, delivering the at least one item or service to the receiver, and in response to the financial portion of the order being denied by the financial processor, not delivering the at least one item or service to the receiver, wherein the at least one item or service is capable of being ordered and delivered without requiring financial information to be received by the provider or the deliverer from the purchaser or the receiver The closest prior art, is also **the best U.S art:** Martinez (US PAT: 5,208,446), discloses a system and method for allowing credit card information to be accepted, verified, and processed contemporaneously with the delivery of goods (col. 1, lines 6-35). The apparatus accepts credit information for the recipient and transmits the credit information for approval (col. 2, lines 13-58). This requires the recipient to have credit card information, such as a credit or bank guarantee card (col. 1, lines 35-43). Further, the approach of Martinez requires the recipient to provide this credit card information to the delivery person, which teaches away from the applicant's claimed approach that requires the recipient to only provide the order identifier to the delivery person, but not the recipient's credit card information. Thus, Martinez just does not meet applicant's claimed limitation of "generating an order identifier associated with the order to be provided to at least one of the purchaser and the receiver, the order identifier not including financial information for the purchaser; obtaining the order identifier from the receiver at substantially a time of delivery."

Another prior art, Bloom (US: 6,974,928), teaches efficient bulk package delivery to an automated article storage and retrieval system at a centralized article pickup location (col. 1, lines 8-12; col. 2, lines 25-64). Although, Bloom discloses generating

Art Unit: 3695

order identifier and providing this information to the customer (see col.4 lines 4-15), Bloom does not contemplate obtaining the order identifier from the receiver at substantially a time of delivery to consummate the transaction.

Updated searches revealed no references that disclosed the claimed inventions, nor were any secondary references identified which could be reasonably combined with Martinez. The drawings submitted on 07/20/01 are acceptable. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
